

WARRANTY

WASTE PROCESSING EQUIPMENT, INC. warrants all MAX-PAK equipment to be free from defects in material and workmanship, under normal use and service as indicated by the owners manual.

All Standard Vertical Cardboard Balers carry a warranty of **two-years** on parts and labor, and **five-years** on the structure. At the end of the second year, labor and shipping costs become the responsibility of the customer. All other Vertical Balers carry a warranty of **one-year** parts and labor.

This is with these exceptions:

- Any single-phase motor will carry a 90-day warranty.
- The Supermarket Baler carries a warranty of one-year on parts and ninety-days on labor.
- Any MAX-PAK Baler used outside the Continental United States will have a warranty of one-year, parts only.

All Horizontal Balers carry a warranty of **one-year** parts and labor.

This warranty shall be limited to the factory authorized repair or replacement of defective parts as stated above. The purchaser hereby expressly waives all other damage and claims, statutory or otherwise.

This warranty shall not apply:

- **If the equipment has been operated in excess of factory recommended specifications and hydraulic pressures.**
- **For processing of material not recommended for introduction into baler.**
- **If failure is due to external electrical service or operator error.**
- **If failure or damage occurs through lack of or improper maintenance, accident, improper installation, unauthorized modification, or other causes beyond the control of the manufacturer.**

This warranty does not cover lost time or contract shortfall due to equipment in operation, whatever the problem.

Modifications of any kind made to the equipment without the express written consent of **WASTE PROCESSING EQUIPMENT, INC.** voids the warranty.

The Customer/Dealer must call MAX-PAK and get an approved Service Work Order for any service work to be done. No warranty repair will be paid without an approved Service Work Order number on all paperwork. If a part has failed during the warranty period, the Customer/Dealer must return the defective part to MAX-PAK within 15 days for testing. If MAX-PAK determines the part to be in good working condition or we do not receive the defective part within the given period, MAX-PAK will invoice the customer for the new replacement part.

Items not covered by warranty:

1. Fuses
2. Electrical power source to the equipment
3. Limit Switch adjustment
4. Oil leaks where tightening of fixtures are indicated.
5. Wear materials
6. Damage caused by improper operation
7. Eject Chains
8. Retaining Dogs
